LAKEFLOW:
Accelerating your Data Estate in Azure

STAND-UP AND MAINTAIN A DATA ESTATE IN AZURE WHICH IS CONSISTENT, RELIABLE AND MONITORED - 50% FASTER!

50% FASTER

Our Lakeflow Service now supports both Microsoft Fabric and Databricks based architecture in Azure.

WHAT IS LAKEFLOW?

Our LakeFlow service is data engineering at its best. Leveraging Microsoft Azure combined with our processes, automation and experience we can stand-up and maintain a data estate 50% faster than traditional manual techniques. LakeFlow creates reliable, consistent and monitored solutions automatically with either Microsoft Fabric or Databricks based architecture in Azure.
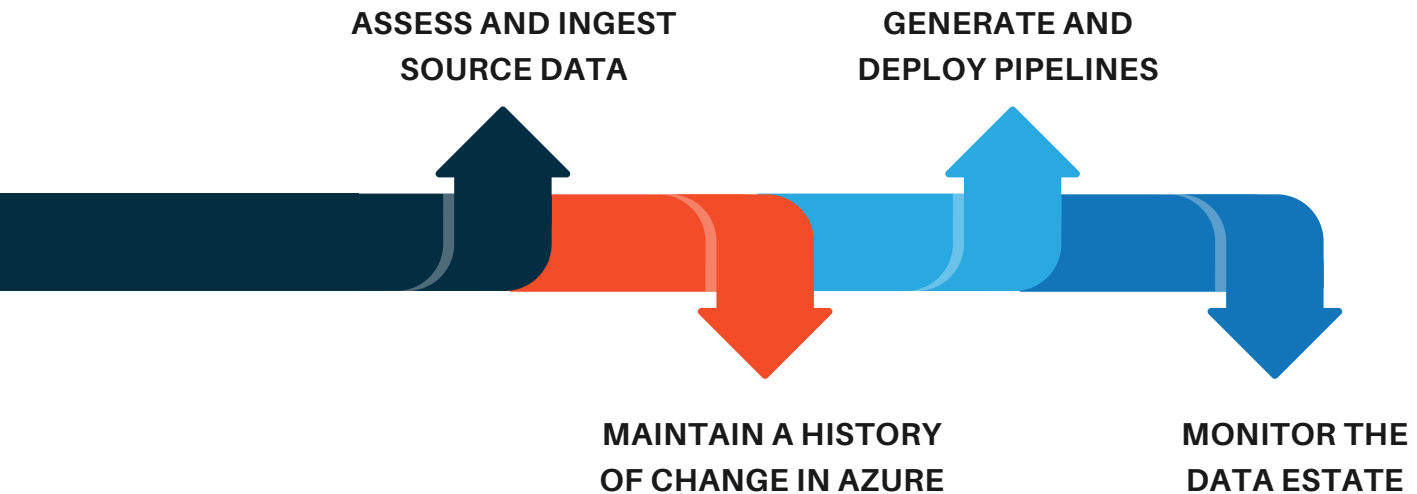

WHY IS LAKEFLOW DIFFERENT?

- Based on years of combined experience in building high-performance, stable data estates in Azure - both big and small.
- LakeFlow exclusively uses first-party Azure components, to ensure your data estate evolves with Microsoft's cloud platform.
- We manage your solution on an ongoing basis.

OUR APPROACH

ASSESS AND INGEST SOURCE DATA

GENERATE AND DEPLOY PIPELINES

MAINTAIN A HISTORY OF CHANGE IN AZURE

MONITOR THE DATA ESTATE

WHAT CAN YOU ACHIEVE?

- Deploy a data estate within your Azure environment using only Azure first-party components.
- Generate ingestion pipelines and onboard new data sources to your data estate fast, allowing you to focus on your dashboards and insights.
- Use LakeFlow to automatically maintain a historical record of your data, in a cost-effective data lake.
- Proactively monitor your pipelines, picking up anomalies in data flows, before failures occur.

WHAT BENEFITS CAN YOU EXPECT?

- **Speed of development:** generate your data estate pipelines 50% faster than traditional, manual techniques.
- **Reduce risk:** build and maintain your pipelines in the same consistent, repeatable way.
- **Automation:** Deploy your pipelines across your environments (dev, test & production) automatically.
- **Proactive support and maintenance:** monitor your pipelines and detect when they are at risk of failing.

WHY DATA ADDICTION?

LEADERS IN MICROSOFT DATA AND AI

With a strong foothold in Microsoft Data and AI in ANZ, Data Addiction is at the forefront of cutting-edge technologies, ensuring that your business stays ahead of the curve.

BUSINESS-FIRST APPROACH

We prioritise understanding your unique challenges, priorities, and expectations before delivering value.

EXPERTS IN AUTOMATION

Our expertise in automating business processes with powerful Microsoft tools and applications sets us apart.

END-TO-END

Leverage our managed services for ongoing support and a long-term partnership.

UNLOCK THE POTENTIAL OF LAKEFLOW.
